

Serial No. 10/762,083

R E M A R K S

Applicant wishes to thank Examiner for his courtesy in granting the interview held on May 2, 2005, at which time the above claim 1 and distinction over the references was discussed.

Claim 1, as now amended, incorporates contents of dependent claims, 3, 4, 5, 6 and 7, now cancelled, and clearly defines over cited art, which fails to teach or suggest the totality of claim 1. See for example subparagraph g), h) and i), in combination, as discussed at the interview. Applicants' invention concerns control of wing shape, not aircraft pitch or roll.

In view of the interview, the Interview Summary Record, and the above amendment, it is believed the application is now in condition for allowance, which is respectfully solicited.

Respectfully submitted,

William W. Haefliger
